Introducing Lindström EDGE Shear Cutters!

The new Shear Cutters series from Lindström features a high-performance alloy steel with precision-ground cutting edges, Rockwell hardness of 63-65 HRC, and ergonomic light-weight textured grips for comfort and stability. Expert shear cutting technology and a controlled edge overlap of less than 0.2 mm help deliver a clean cut—on even the thinnest wires.

Dura Shear - 6151

Micro EDGE: Best for applications where the durability of the shear cutter is a priority. Strong bevel blades and by-pass cutting action delivers a precise, flush cut. Return spring and opening limiter allows for smooth operation that helps minimize hand fatigue.

PLR-6151

Accu Shear - 6152

Flush EDGE: The ultimate cutter for executing precise cuts when working with the finest material. By-pass cutting action produces an extremely clean, flush cut. Return spring and opening limiter allows for smooth operation that helps minimize hand fatigue.

PLR-6152

Peak Shear - 6159

The pointy-head design and its symmetrical tips have been specifically designed to allow for maximum access and reach. By-pass cutting action with narrow pointy jaws allows users to get underneath delicate components and in tight places for a precision flush cut.

PLR-6159

| Model | Length | Jaw Length | Jaw Width | Max Cut (non-ferrous metals) |
|-------|---------------|-------------|---------------|---------------------------------|
| 6151 | 134mm (5.28") | 14mm (.55") | 15mm (.59") | 16ga |
| 6152 | 134mm (5.28") | 14mm (.55") | 15mm (.59") | 16ga |
| 6159 | 134mm (5.28") | 14mm (.55") | 12.8mm (.50") | 18ga |

| Stock # | Description | U/M | MSRP |
|----------|--|-----|---------|
| PLR-6151 | LINDSTROM EDGE, TAPERED-SHEAR CUTTER, MICRO 6151 | EA | \$24.00 |
| PLR-6152 | LINDSTROM EDGE, TAPERED-SHEAR CUTTER, FLUSH 6152 | EA | \$25.00 |
| PLR-6159 | LINDSTROM EDGE, POINTY SHEAR CUTTER, FLUSH 6159 | EA | \$29.00 |
